## MAKING THE MOST OF OPPORTUNITIES

At various times in your life, you've probably had the feeling that the opportunities are available for exactly what you want to do. At other times, you've undoubtedly experienced the feeling that hardly anything is going right and that you can't find a satisfactory outlet for your capabilities.

By using the science of numerology, though, you can recognize the specific influences and opportunities in your life at any given time. You can determine—in advance—the times of greatest opportunity and you can also foresee difficulties and the areas in which they're likely to happen. Numerology doesn't give you the ability to foretell the future. It does, however, give you the ability to see and analyze many of the coming influences and opportunities before they occur. This allows you to maximize the positive potential as well as to prepare beforehand for problems that may be developing.

This profile describes the influences and opportunities you can expect in your life during the time span shown. The profile also includes suggestions for resolving any difficulties as well as for making the best use of the coming opportunities.

## **JANUARY THROUGH DECEMBER 2024**

### **A TIME FOR TRAVEL, CHANGE AND NEW OPPORTUNITIES. A TIME TO STAY FOCUSED AND NOT SCATTER YOURSELF.**

#### **Your 5 Personal Year**

The year 2024 is a time to revel in freedom and expand your horizons. Keep an open mind and concentrate on feeling very loose and free. Be very adventurous and as flexible as possible. Make constant use of your imagination, your creative approach and as much resourcefulness as you can muster. Your myriad activities are likely to move at a very fast pace. Many of your opportunities—and some of the most exciting ones—will be found outside your ordinary routine.

An important change is likely, possibly residence, work or family situation. You may initiate the change or find yourself dealing with changes begun by other people. Take advantage of the shifting circumstances and flow with the evolving conditions. Emphasize your versatility and quick reactions. Learn to release your hold on the old gracefully and make room for the new. Make sure, though, to take care of any situations left over from the break in old conditions. This will help ensure a better chance of increasing your personal freedom and furthering your professional advancement.

During 2024, delight in the great variety of experience that comes your way. Enjoy new opportunities, interests and activities. Expect anything and everything imaginable. Expect the unexpected and be ready to go along with it.

Keep your eyes open for new and exciting friends from all walks of life. Enjoy the many social affairs available, too. If you enjoy children—either your own or someone else's—you may want to include them in many of your fun activities. They'll get a lot out of it and you probably will, too. You may want to travel, possibly to unusual or out-of-the-way places. You may travel a long distance or take several shorter but equally exciting trips. Your travel plans may be intermingled with potential business opportunities. If so, make the most of both of them. You may want to speculate in some interesting financial schemes. Keep your wits about you, though. Get a good sense of the merit of any venture before you make the plunge. Try to avoid extravagant or self-indulgent activities. You may expect more in the way of rewards than you actually receive. Exert considerable effort throughout the year to promote yourself, your business and your ideas with enthusiasm.

Despite the excitement generated by all of this year's activities, try not to procrastinate or neglect your obligations. Be careful not to scatter your energy in all directions; try to concentrate on one interest or activity at a time. If you feel restless, impetuous or impatient—and this may happen frequently in 2024—you may not be able to maximize some of the high-powered potential that's

---

present in many of your freewheeling opportunities. Although you may feel too busy much of the time, don't neglect your family or close friends or you may regret it later.

You're apt to have considerable appeal to the opposite sex this year. Enjoy the romances that come your way. But be careful not to get too involved, because these affairs are likely to be short-lived. Be careful not to overindulge in sensual activities to the extent that you lose track of other opportunities or responsibilities. Don't express your personal freedom at the expense of others. Try to control your eating and drinking and keep them both at reasonable levels. You may have to exert considerable effort to be well disciplined this year.

## **Special Focus For This Year**

In 2024, be ready for some important changes. You may initiate some of the changes, but those that you don't originate also may be worth working on. Expect changes particularly in ventures related to your work or career. This may be a good time to expand some of your operations. Make sure you move away from your old routines constructively. If you find you're eliminating existing situations that have caused problems, be careful that you don't jump out of the frying pan into the fire. The shifts should add new life and color to your undertakings. This may be a good time to present your projects and maybe yourself, too—from a new angle. Advertising may prove highly effective. There may be changes in coworkers or associates, along with the possibility of some new friends. Avoid quarrels. Avoid burning your bridges behind you as well.

Many new experiences are likely to come to your attention throughout the year. Chances are that you feel very loose and free. Be careful not to misuse your freedom at others' expense. Your many opportunities almost invariably stress the new and progressive in 2024. Travel, for business or personal reasons, can be most enlightening this year. Don't be surprised if you run into lots of excitement and adventure.

## **Your 5 Essence**

### **January 1 through December 31**

While the above described Personal Year indicates the best approach for you to take for growth and development during 2024, the Essence points out the likely events to take place during the period that it is active. Knowing the probable events that will happen and the preferred approach to those events will help you to get the most out of your experiences.

During this period you will encounter events and opportunities that emphasize your use of freedom. You will experience many sudden, unexpected or unusual events. This is a time of constant change and activity. You may find yourself traveling, making new friends, enjoying new ideas or engaging in ventures stressing progress.

You must be very careful not to scatter your energies, trying to do too much or going off in every direction. There are likely to be far more opportunities than you can possibly take advantage of. Don't confuse constant change for forward movement, or you'll actually be misusing the freedom available to you. Avoid an over indulgence in the physical pleasures—food, drink, sex

---

or drugs—as well as a self-centered approach with little concern for others. Carefully pick and choose those opportunities that have the most promise. If you don't learn to focus your energies, you'll accomplish very little during this period, missing the chances for fun and constructive development.

## **Monthly Highlights For 2024**

The Personal Year is an important yearly influence. This influence, though, is expressed with a somewhat different emphasis each month. Be sure to take the monthly emphasis into account, too, when considering the best approach to take to each month's events. Monthly highlights for 2024 are given next, followed by detailed descriptions for each month.

Expect some strong business opportunities with financial potential in March. In May, there may be additional career potential and the possibility of significant changes. Lots of fun and possibly travel are likely in July. Take care of the work that has to be done in August and avoid any disagreements. Don't scatter your energy among the many exciting opportunities in September. There's a good chance to move your business forward dramatically in December.

### **JANUARY 2024**

#### **Your 6 Personal Month**

As the new year begins, much of your activity will revolve around your family. Some parties and get-togethers will provide fun times and a good deal of closeness. Allow time for the children. Enjoy the love and romance you find, too, particularly around January 6th. Family duties, some of them a carry-over from last year, will require hard work to complete. Even though these chores may get in the way of other activities, don't neglect them. Take care of any financial or legal matters connected with your home, as well, on January 13th or thereabouts. Be prepared for the start of some significant changes or improvements in your family or home life about January 17th or 27th. If you're the one initiating these shifts in direction, think out your plans carefully before putting them into action. Try to keep your feelings under control and help others do the same. Some of these changes, when completed, will provide a good deal more freedom for you—and others—than is possible now. Be ready to help these improvements along throughout the year.

### **FEBRUARY 2024**

#### **Your 7 Personal Month**

You'll want to spend some time alone this month. You may need to be by yourself to assimilate the important changes from last month and to consider the best ways to implement them. You probably also want to assess some other possible shifts and figure out the best ways to put them into action. If you're interested in spiritual matters, part of this month, particularly during the week of February 18th, may be devoted to meditation and private study in that area. Although

---

you need time for contemplation during part of February, you're also aware of a restlessness and a need to get on with some of the important matters you're concerned with. This isn't the time to spring into action, though. If you act impulsively, this may make it difficult to obtain the very things you're working to achieve. Prepare for constructive action next month and bide your time as best you can. Avoid quarrels and misunderstandings. Have a health checkup on February 15th or 24th and, if it appeals to you, begin a diet and physical fitness program.

## **MARCH 2024**

### **Your 8 Personal Month**

Check out the business opportunities and financial possibilities that come your way. Recognize that some of the situations that present themselves may represent an entirely new direction that can bring you more in the way of freedom. Recognize, too, that you can now start to change or expand for the better some of your existing ventures. You also can begin new endeavors, preferably between March 6th and 20th, so that both the new and existing ones will be far more to your liking. Present yourself in a very businesslike manner. Use a realistic and practical approach. Carefully study the possibilities in the various situations you find. Estimate the work you'll have to do during the next year or so in order to make a go of these endeavors. Be sure it fits in with your other activities. Make up your mind quickly so that you can take full advantage of the situation. Be open to meeting new friends and potential business associates during the week of March 14th.

## **APRIL 2024**

### **Your 9 Personal Month**

You've made several important changes during the last few months and probably are contemplating a few more. You may have the feeling, though, that despite the shifts, you're still being held back to some extent. This month, a significant relationship, association or experience may founder or end, most likely between April 2nd and 18th. Although you may be surprised, that termination may allow you a great deal more personal liberty than you ever imagined. There's a good chance that the conclusion you experience will remove any feelings that the brakes are still being applied. You'll feel remarkably freer and more open. You can now begin to pursue a different, more progressive course that more closely meets your needs. Feelings may run high while the termination and its related changes and transitions are in progress. Keep your cool. You may also experience some temper or disagreements in regard to romantic matters during the weeks of April 6th or 11th. Handle this as sensitively as possible to avoid breakups.

---

## **MAY 2024**

### **Your 1 Personal Month**

May most likely will be a very stimulating month. With the endings you experienced in April, you'll probably feel much freer, more aware of what's going on and much more open to the possibilities. Your ongoing ventures are likely to advance dynamically, especially around May 7th. You can also find some new and unusual opportunities, probably between May 9th and 16th. Begin to develop progressive possibilities with good potential for the future. Your own enthusiasm will carry you along in May, combined with some unusual support from an unexpected source. Do things your own way for maximum benefit and don't pay too much attention to others' differing views. Move ahead constructively after reasonable investigation and study. Be careful not to act impulsively. On or about May 18th, a significant change may provide opportunities for some interesting travel. Enjoy the exhilaration of these trips and pay careful attention as matters develop.

## **JUNE 2024**

### **Your 11/2 Personal Month**

Although your endeavors will continue to move ahead, the pace is likely to be somewhat slower than last month. An occasional holdup or work stoppage probably also will occur, possibly around June 5th or 9th. Accept these temporary delays. Don't try to speed things up or you may unwittingly disrupt a critical schedule. While you're waiting for your own ventures to get back on track, offer your assistance to friends or associates who need a helping hand. Be as patient as you can be with your own and others' work. If you're tactful and diplomatic, it will be a lot easier to handle misunderstandings or frayed tempers. Enjoy your children and socializing with special friends this month. On or about June 13th, make the most of any opportunities to meet new friends. The pleasures of love and romance also may come your way. Be extremely sensitive in all your personal relations. That sensitivity also may allow for some spiritual insights leading in new directions, particularly on June 18th.

## **JULY 2024**

### **Your 3 Personal Month**

Delight in the variety of situations that come your way. You'll often express the exhilarating joy of living you feel as you participate in unusual, unique or unexpected experiences from July 2nd to 20th. These experiences are often related to changes which can lead to new progressive opportunities or can considerably expand some of your ongoing endeavors. Use an imaginative approach to maximize your benefits. This also is a time for pleasure with old and new friends. Take advantage of the parties and other social gatherings this month. Enjoy your family and make sure to allow time for special activities with your children, particularly around July 11th or 18th. Romances, possibly those begun last month, can proceed and bring much pleasure and

---

satisfaction. Trips and other adventures can prove extremely exciting and stimulating. Take care of work that needs to be done but try to allow enough time for fun, rest and relaxation.

## **AUGUST 2024**

### **Your 4 Personal Month**

Although you'd like to continue enjoying all the free-wheeling activity just as you did last month, it's far more important to take care of the various jobs that need attention in August. Attend to the work even if you have to cancel some of the lighter activities you were looking forward to. During the weeks of August 2nd and 20th, discharge your home and family obligations. If some of the domestic chores or other tasks requiring attention are not fully discharged this month, they may interfere with important possibilities later in the year and impede your progress. Even minor jobs may feel irritating or particularly restrictive now, but it'll be to your benefit to get them out of the way. Check on your health. Keep your feelings under control, especially from August 9th to 18th. Treat any disagreements or upsets with a caring and patient approach. If you can lighten the load for yourself or other people by adding a sense of joy and delight, it'll be much appreciated.

## **SEPTEMBER 2024**

### **Your 5 Personal Month**

There's heightened excitement possible throughout the month. Many unusual experiences are available, particularly around September 9th or 18th. Expect a chance to meet new people, see new places and enjoy exhilarating activities and progressive opportunities. Have fun; make a splash; find a joyous romantic interlude during the week of September 19th. Take a vacation or travel for business or pleasure on September 25th or thereabouts. Initiate some changes or take advantage of significant changes started by other people. Complete the final steps involved in changes begun earlier in the year. Expend some effort to keep a sense of proportion in order to make the most of the month's experiences. If you feel restless or choose to indulge a large appetite for physical stimulation, you're likely to get in your own way. Try to minimize or delegate your responsibilities but attempt to take care of your obligations if your attention is needed and no one else is available.

## **OCTOBER 2024**

### **Your 6 Personal Month**

Activities involving your family members and close friends are likely to bring lots of fun and exhilaration this month. Some parties or get-togethers will give you the opportunity to spend some delightful times with people you hold dear. Plan some visits, trips or interesting experiences involving your children, too, probably around October 5th. Love and romance also can be very beautiful this month, particularly during the week of October 14th. Domestic duties

---

must be taken care of and may be irritating when they interfere with time you had hoped to spend on more exhilarating activities. The results of changes begun earlier in the year can be seen and evaluated now. You may recognize the need for further shifts in direction to add balance and harmony to the home environment. Initiate any changes that are appropriate, ideally between October 17th and 27th. For more extensive domestic changes, prepare now so you can more readily implement them after the new year gets under way.

## **NOVEMBER 2024**

### **Your 7 Personal Month**

You'll want to spend some time alone in November, after all the months of activity and excitement. At the least, you can use some rest and relaxation. Have a physical checkup sometime around November 6th. It may be a good time, too, to plan an exercise regimen or diet program to implement when the new year begins. You may also need to be by yourself this month to reflect on a number of significant matters, particularly between November 9th and 27th. Assess the many changes that have taken place throughout the year and the added freedom you now feel. Appraise your accomplishments and the progress of your ongoing ventures in 2024. In particular look at your home and family and the domestic issues you explored partially last month. Firm up plans for the future so that changes you want to put into effect during the next few months can be delicately handled for easier acceptance. Make sure that your family and close friends are fully aware of your current need to spend time by yourself.

## **DECEMBER 2024**

### **Your 8 Personal Month**

This very busy year is likely to end with a flurry of activity. A few new people with a significant role to play in your ongoing ventures may enter your life this month, possibly around December 9th. Expect some interesting new opportunities, too, on December 11th or 15th or thereabouts, related to your business or financial interests and pointing dramatically in progressive directions. Take whatever steps are necessary to integrate these new situations into the rest of your activities. In addition, you'll want to take care of the work required by your long-term projects. You'll want to spend time, too, gaining additional clarity on family matters you've been considering for the last month or two. Take any small steps needed during the week of December 16th but continue to prepare for further domestic developments when the new year gets underway. Allow time to prepare for a festive holiday season and good times with dear friends, family and a special loved one.

As 2024 concludes, there may be important changes—particularly in regard to business or career matters—during the last several months, just as there have been throughout the year. Take advantage of them. Enjoy the many exciting experiences that come your way. You may meet some new friends of importance or possibly a new partner or associate.
