REVEALING THE HIDDEN POWER OF NUMBERS

MY NUMEROLOGY GUIDE TO...

LIFE PATH NUMBERS

By Stephen Kirkbride

www.KT-Numerology.co.uk

Introduction

I want to sincerely thank you for making the effort to learn more about numerology.

As a very spiritual person and numerologist, my intention is to simply help you understand who you really are, through the power of numerology.

Once you're aware of how to start decoding the vast amounts of information encoded in in your name and date of birth, I'll show you practical ways to use it and enhance your lifestyle and wellbeing.

As you grasp the basics and understand how to decode the key numbers in any date of birth, you'll be able to practically know anybody (i.e. the real person) inside out!

Although numbers are only perceived as 2 dimensional, they are very real on an energetic level and affect the world around us, whether we're aware of it or not.

As you begin to understand the effect numbers have on each of us and what underlying energy each number represents, you can then start to use them to your advantage in your everyday life.

This guide is focusing purely on **life path numbers** as your life path is the most significant number in your personal numerology profile.

By the end of this guide, you will know all the key traits of all 12 life paths and start to understand why people act the way they do, as you see the traits behind their life path.

If our paths cross in the future, I very much look forward to meeting you and talking numbers and spiritual stuff (if you're into that too!).

Thank you once again, I sincerely hope you gets lots of value from this educational guide and have some fun with it (as you instinctively start looking at the traits of people you know 😊).

With love & blessings

Stephen Kirkbride

What is Numerology?

Numerology is the universal language and science of numbers which is said to have been created by Pythagoras, the Greek mystic and mathematician, more than 2,500 years ago.

It is based on the premise that **we are timeless souls** who have lived, and will continue to live, many lives for the purpose of evolving our soul through experiences and life lessons.

In our quest for self-mastery, we choose a known pre-set agenda for each life, consisting of the specific lessons we'd like to learn and the destiny we'd like to fulfil, during that lifetime.

The **details of all this, can be found in our 'numbers'** or more specifically our name and date of birth.

Drum roll..... your name and date of birth are no accident...you specifically chose them!

Let's go a little bit deeper...

Your soul comes from the spirit dimension whereas your body comes from the earth dimension. They come together at some point in the gestation period (pregnancy) as a beautiful divine creation, this is when your soul enters the unborn fetus in readiness for your birth and life as one.

It's your unborn body (prior to your soul entering it) which holds the **energetic blueprint** of who you are and what you are destined to be in this lifetime. Your soul then enters the body and you emerge from the womb on the pre-determined date of birth, carrying the energetic blueprint for your chosen path and destiny.

The energies within the blueprint are basically a set of frequencies encoded with everything you energetically need (characteristics, skills, traits etc) for the lifetime you have chosen.

And how do we measure and quantify anything? With numbers and letters of course.

If you know how to fully encode your name and date of birth you will find layer upon layer of information about yourself. That's what numerology does 😊.

People often joke that we don't get a rule book for our lives, yet we have the blueprint right under our nose and most people haven't a clue! It's all there in your numbers!

How it actually works (snapshot)?

Each number in your date of birth and full name (n.b. each letter in your name converts to a number between 1 – 9 with numerology) represents a vibrational frequency.

Your name and date of birth obviously have the individual letters and numbers which all have individual frequencies, in addition to these, there are multiple other layers of frequencies contained within.

All these individual and layered frequencies correspond to the necessary skills, personality traits, characteristics, emotions etc, needed for your journey, experiences and lessons you wanted during **this** lifetime.

But surely my parents chose my name?... I hear you ask!

They did officially name you, but what really happened is you quietly influenced (planted your name in their minds) your parents from the spiritual realm.

So, encoded in your name and date of birth is your soul's blueprint for this lifetime that was set-in motion long before you entered this world.

Numerology is the key to helping us decode this powerful information that we have all forgotten, it will help you see the bigger picture and discover the real you!

Why don't we remember any of this?

Because we incarnate for the purpose of wisdom and growth for the soul, we have our memories wiped when entering the foetus, this is often referred to as the 'vale of amnesia.' If we carried all the soul's wisdom through each incarnation, we'd already be wise and wouldn't benefit from the lessons and growth our souls are seeking through each human experience.

Planet earth is effectively a school that we have all chosen to come to with eagerness and excitement because of the wonderful opportunity it offers us for developing our souls through experiences.

Unfortunately, because our memories are wiped prior to birth and nobody really explains this stuff to us, we pretty much must try to figure it all out, the majority never do!

Fortunately, through Numerology and similar spiritual disciplines we can begin to understand our true purpose in this lifetime and the specific lessons we came here to learn 😊.

Video assistance

I've taken the liberty of also embedding a few videos from the [know thyself numerology](https://www.youtube.com/channel/UCv8v8v8v8v8v8v8v8v8v8v8) you tube channel in certain places. This gives you the option to watch me explain certain aspects, if preferred. If you see a video screenshot or hyperlink, this denotes a link to a corresponding video or webpage.

Mistakes

You may notice the odd grammatical mistake in the written traits/characteristics on a few of the graphics. Please excuse this, a lot of the information is channelled through my guides and I just let it flow as it comes through (and don't even notice in that state) but I have kept it in for authenticity, so please go easy on me 😊.

The Energetic Meaning of Each Number

In a nutshell, there are only 9 numbers to deal with in Numerology, 1, 2, 3, 4, 5, 6, 7, 8 & 9 that's it 😊 you don't need to know any others, not even 0 as it has no effect!

The reason is that every number in existence, no matter how big, reduces down to a number between 1 – 9, I'll show how this works very shortly.

The only exception to reducing down is sometimes when we have a sequence of the same numbers such as 11, 22, 33 etc. These are referred to as master numbers as they carry additional energy, you'll get the gist as we go through it.

Reducing down, simply means adding all the digits in a number together (and then the total if required) until you have a single digit between 1 - 9, here are some examples;

the number 31 would reduce to 4 ($3 + 1 = 4$).

the number 248 would reduce to 5 ($2 + 4 + 8 = 14$, $1 + 4 = 5$).

the number 2019 would reduce to 3 ($2 + 0 + 1 + 9 = 12$, $1 + 2 = 3$),

The same applies to letters, in western numerology all 26 letters correspond to a number between 1 – 9 as follows;

A	B	C	D	E	F	G	H	I
1	2	3	4	5	6	7	8	9
J	K	L	M	N	O	P	Q	R
1	2	3	4	5	6	7	8	9
S	T	U	V	W	X	Y	Z	
1	2	3	4	5	6	7	8	

So, every number and letter correspond to an underlying energetic frequency between 1 – 9 and once you know how to interpret these 9 basic frequencies, you're effectively a mini numerologist 😊!

Here's the general energetic meaning of the numbers 1 – 9;

- 1 ~ Individualistic, Independent**
- 2 ~ Cooperation, Peacemaker**
- 3 ~ Creative, Expressive**
- 4 ~ Worker, Process, Foundations**
- 5 ~ Freedom, Adventure**

6 ~ Nurturer, Caretaker

7 ~ Truth-seeker

8 ~ Power, Abundance, Finance

9 ~ Humanitarian, Global Awareness

I've kept the traits very generic for simplicity, each number has a lot of depth with both positive and negative traits.

Negative Traits

If you'd like to know the negative traits of each of the 9 numbers, click on the video image.

All the numbers are sequentially connected and reflect a complete journey or cycle, as follows...

1. **Ignition** ~ the birth of a new journey, full of energy and ambition.
2. **Feeling Life** ~ emotional seesaw (duality), relating to another.
3. **Expressing Life** ~ adds inspiration and expression to create new ideas.
4. **Erecting the Structure** ~ down to earth, bringing ideas into reality.
5. **Exploring the structure** ~ a quest for knowledge, experience and discovery.
6. **Vision of Perfection** ~ seeking fulfilment through harmony and perfection.
7. **Realising Perfection** ~ mystical transformation, seeks to heal life.
8. **Perfection Reworked** ~ the strategist and organiser, rework and rebuild.
9. **Completing the cycle** ~ dispensing the knowledge/wisdom of the journey.

Your Life Path Number (Most Influential Core Number)

Here's demo of how to work out your life path;

All you do is add together all the digits in your date of birth and then add the 2 digits in the total (known as reducing down) so you have a single figure. The only exception to reducing down to a single figure is if you get to 11, 22 or 33 as these are known as master numbers.

There are 12 life paths in total, 1, 2, 3, 4, 5, 6, 7, 8, 9, 11, 22 & 33.

Here are 3 examples of how to work to work them out;

E.g.1; let's use 05th October 1969:

Add all the digits... $0+5+1+0+1+9+6+9 = 31$

Now add $3+1= 4$

A person born on 5th Oct 1969 is a **life path 4**.

Life path 4's can be summarised as **the dedicated workers** of society, if you want to get things done, make sure you have some life path 4's on your side.

E.g.2; 07th October 1992:

Add all the digits... $0+7+1+0+1+9+9+2 = 29$

Now add $2+9= 11$ (not reduced any further)

A person born on 7th Oct 1992 is a **life path 11**.

Life path 11's can be summarised as **intuitive healers**, they make very good teachers, healers and friends

E.g.3; 04th Sept 2018:

Add all the digits... $0+4+0+9+2+0+1+8 = 24$

Now add $2+4= 6$

A person born on 4th Sept 2018 is a **life path 6**.

Life path 6 can be summarised as **nurturing caregivers**, they want to look after everybody and make great parents.
